## Tourism Kamloops

### ***BC Wildlife Park's large new quarantine pen and come-back of the Wildlights!***

*The BC Wildlife Park have started their construction for a large quarantine pen for big animals like bison, deer, or big horn sheep. Their aim is to build the new quarantine facility to have a separate medical care facilities for bigger animals so that they can welcome more animals that need care and support.*

*The Wildlights at the BC Wildlife Park also made a comeback in the year 2021 for their 24<sup>th</sup> Annual event after a long year of COVID-19 pandemic, wildfires, floods, and are hoping to continue the event for the following years. The BC Wildlife Park is export ready and open for bookings.*

### ***Monte Creek Winery Expansion***

*Due to growth of the Monte Creek Winery in just 5 years, they have decided to expand their business which meant constructing their very own Gravity Flow Production Facility of around 18,000 sq ft. This will result in better fragrance and flavor in their wine. The Gravity Flow Production will use the natural forces of the ground to move the wine rather than using pumps along with keeping sustainability in mind.*

*The Monte Creek Winery is export ready and open for bookings.*
