## Evergreen Adventures

### Private Ice Cave Tour by Evergreen Adventures

Definitely the most unique and exhilarating experience in British Columbia! Start your once in a lifetime experience with a two-hour ride on the most scenic highway in Canada, called “Sea to Sky Highway”. The first stop you will witness nature’s power of Shannon Falls, the third highest waterfall in the province at 335 meters (1,099 feet). After the falls, you’ll enjoy a scenic drive to the Whistler heliport where a private helicopter will be waiting to take you on a 30-minute flight to the main event. Your expert pilot/guide will land at the base of a remote glacier while you admire rushing waterfalls, alpine lakes and magical ancestral glaciers. Experience enchanting natural ice sculptures, crystalline formations and gentle slides. Be guided from one grand hall to the next, where your pilot/guide will lead you through a labyrinth of chambers of aqua blue magnificence until you will reach your lunch spot and enjoy your delicious alpine lunch whilst you sit in awe and admire your surroundings. Nearing the end of your epic cave experience, take a 30-minute return flight that will transport you back to the Whistler heliport. Your exciting day concludes with a 120- minute drive back to your Vancouver hotel. This tour offers the option for a helicopter roundtrip flight from downtown Vancouver (additional cost).
