**Title:** Experience Beluga Whales in Churchill

**Subheader:** *Join Frontiers North Adventures on the Conservation Journey: Beluga Whales tour, with an accomplished beluga whale researcher from the Raincoast Conservation Foundation.*

**Body:** This exclusive tour combines immersive education and adventure to create a unique opportunity to experience Churchill’s coastal waters with an experienced marine expert.

Venture into the Churchill River estuary, where thousands of beluga whales migrate into the warm, shallow waters each summer to give birth and nurture their young. Learn about beluga whale biology and ocean health, while coming face-to-face with beluga whales in their natural habitat and engage with a species expert to learn more about these magnificent creatures.

This adventure is specially designed to provide you with an epic experience and a meaningful opportunity to learn from and engage with a species expert as you enjoy viewing beluga whales. Take home unforgettable memories and new insights after this trip to the subarctic.

The 2024 Conservation Journey runs from July 26-31, to learn more or to book [visit us online](#).
